

MAXAIR **Powered Air** **Purifying Respirator**

PAPR system provides superior respiratory protection while improving productivity!

**NIOSH
Approved!**

Use MAXAIR anywhere workers could be exposed to heat stress or contaminated air.

UniTech is the exclusive authorized nuclear industry distributor of the NIOSH-approved MAXAIR PAPR system. The system features a helmet, disposable HE filter, filter cover, and a choice of disposable cuff or shroud. It includes patented "hose-free" technology and LED visual safety indicators provide wearers with real-time information on remaining battery life and airflow.

The PAPR system maximizes comfort, has no hose or battery pack that can be bumped or get caught on pipes and hangers, no snorkel to get in the way, and more visibility. Its superior fit is eyeglasses and facial-hair friendly!

Save money with MAXAIR!

- **Increase productivity – reduced heat stress, improved comfort and greater freedom of movement**
- **There's no annual fit-testing needed**

You'll never want to use masks again!

Components

Features

Benefits

Helmet

US-MAX2065-03

- Hose-free design
- Enhanced LED safety indicators
- Advanced airflow control

- No snagging hoses
- Increased security of always visible battery status and airflow information
- Improved user comfort from quieter and more gentle airflow

HE Filter Hood

US-MAX2000-25DM

- Combination pre-filter + filter + hood
- Low cost disposable

- High-efficiency filtration of airborne particulates
- Cost effective disposable in high challenge use

Filter Cover

US-MAX2061-01

- Covers HE filter
- Universal attachment for cuff or shroud

- Greatly extends filter life
- Easy and simplified decontamination
- Splash protection

Cuff or Shroud

US-MAX2360 cuff

US-MAX2260 shroud

- Easily attached to filter cover
- Interchangeable parts
- Low cost, disposable

- Barrier protection against splash
- Simplified decontamination process
- Facial hair & eyeglass friendly
- Available in two sizes: SM/MED or MED/LG

Lithium Ion Battery

US-MAX2000-36

- Small and lightweight
- 8-16 hrs per full charge
- No memory

- Convenient enough to place in scrub pocket
- Full shift use per charge
- No need to discharge battery

Battery Belt

US-MAX2000-76

- Adjustable, clip-on belt

- Convenient carriage of Li-Ion battery

Battery Charger

US-MAX2610-01

- Compact, single unit
- Integrates into 5-gang charger kit

- Easy & convenient storage
- Cost-effective upgrade
