

# SSD<sup>TM</sup> 350

Patent Pending

by

**Innovative Shipping, Storage and Delivery for PCs**

How do you move your protective garments to the issue point and shipping area? How many times do you handle garments prior to and after your employees wear them? As the industry's innovative solution provider for over 40 years, UniTech now introduces...

## SSD<sup>TM</sup> 350

Dirty Garments

In short, **SSD<sup>TM</sup>350** perfects the laundry container concept with easy shelf access, true portability, and remarkable durability.

**SSD<sup>TM</sup>350** is a facility-friendly clothing distribution system that substantially reduces the labor hours and effort associated with the distribution and collection of protective clothing. In fact, the labor savings alone can easily pay for the **SSD<sup>TM</sup>350** system.

Clean Garments

**Value and Quality in Protective Clothing Programs!**

## Innovative PC Shipping, Storage and Delivery

### Large, Yet Portable:

- 57 cubic foot capacity (24" Deep x 60" Wide x 64" Tall).
- Holds 15 bags of used PCs, or 350 folded coveralls.
- Organizes small items for easy access.
- Passes through standard door openings.

### Labor-Friendly:

- Moves 15 bags at a time.
- Eliminates labor required to transfer items from shipping container to laundry shelves.
- Eliminates need to individually tag and move used PC bags through the RCA.
- Labor savings can easily pay for the SSD<sup>TM</sup>350 system.
- Reduces back injuries by eliminating the need to lift tons of laundry annually.

### Rugged and Durable:

- 3,000 pound capacity
- Heavy duty tube steel, powder coated epoxy base designed to hold up to rough handling.
- Wheels that swivel and lock make container handling easy.
- Fork pockets prevent tipping during loading/unloading.
- Welded insert to prevent separation of base from rack.
- Includes restraining device to prevent items from shifting during transport.

Easily Mobilized!

### Minimizes Radwaste:

- Materials are shipped ready to use.
- No string, plastic wrap, tags, tape or plastic bags needed.
- Tube steel easily decontaminated.

### How Many Racks are Needed?:

A 40 foot Sealand container will hold 24 racks. If you ship full semi-trucks with L-59 containers or full Sealand containers (300 bags/shipment) you should order a minimum of 72 racks (3 times the per shipment quantity).
